## Plus d'informations

VERTICAL Project This garden home is part of the "VERTICAL" project, which consists of three sub-areas: "East" with a tall tower with 112 apartments, "Center" with 14 town and garden homes in low-rise buildings, and a mid-rise tower "West" with 42 rental homes. Designed by five Dutch architects, the project meets contemporary sustainability requirements, making VERTICAL one of the most sustainable buildings in the Netherlands. Great attention has been paid to outdoor space and workplaces, with green facades and roof gardens that help reduce heating of the building. The icing on the cake is the "shared living" concept, which allows you to meet friends or neighbors on a floor in the residential tower.
