Una prima impressione

Nestled near the heart of Zandvoort and just a stone's throw from the dunes, four new homes are under construction. Here, you can embrace the tranquillity of village life while always being within easy reach of the beach—a perfect blend of comfort, nature, and charm. Designed for (young) families, these homes offer the best of both worlds. Their modern architecture is complemented by rural influences, striking a balance between stylish living and a welcoming village ambiance. Spacious plots and light-filled interiors create an open, airy atmosphere, allowing you to enjoy both comfort and natural light to the fullest. Built with sustainability in mind, these homes are energy-efficient and future-proof, incorporating high-quality materials and smart technologies for an environmentally conscious lifestyle. The Buitenplaats Kennemer development not only introduces a new residential opportunity but also addresses the growing demand for sustainable and energy-efficient homes. In an era where eco-friendly living is more important than ever, this project offers a responsible and comfortable way of life in harmony with nature. Additionally, it enhances Zandvoort's liveability by integrating a small-scale, high-quality housing concept that complements the village's character and stunning surroundings. Buitenplaats Kennemer is a seamless addition to the residential landscape, preserving the area's charm while providing high-quality homes for both young families and seniors seeking a peaceful, sustainable place to live. This development creates space for those who value modern, future-proof living in a unique and serene environment.
