Tudo sobre a localização

The penthouse is located in a prestigious residential area, at the beginning of the town of Costabissara in a quiet position with respect to traffic. Near the center but in an area close to a rural area. The view and the tranquility enjoyed from this position are of undoubted merit: the road is landlocked and free of any traffic outside the residents of the street. The hills of Monteviale, Madonna delle Grazie and delle Pignare form a unique panorama of which this wide and sunny valley enjoys. The house is perfectly exposed and enjoys light throughout the day until sunset, particularly striking behind the hills. Costabissara has always been appreciated as a residential area for families who like to live close to the city, with all the services at hand, such as kindergarten, elementary and middle schools. The town is equipped with all the typical services of an independent community that are easily reachable both on foot and by bicycle from this residence. The roads leading to the center of the village are all low in traffic density and have ample sidewalks and space for bikes, making the autonomous movements of school-age children safe. From the residence that is located south of the extension of the town center, the city of Vicenza can be easily reached in just over 10 minutes along the road that joins Villa Zileri in the Monteviale area. The Vicenza Ovest industrial area and the related motorway tollbooth are 15 minutes away and once the work on the new SP46 has been completed, travel times will be even faster and traffic-free even at peak times.
